Monthly Newsletter

April 2024

Dear Parents,

April is already here, and spring is still in the air! We are observing the beauties of nature around us everywhere. In our classrooms we shall be continuing our studies of life cycles of plants and animals. An interactive study of nature helps to re-enforce the basic studies of life-science in children.

April also reminds us of Earth Day. We all need to take care of Mother Earth and focus on conserving our natural resources. In our classrooms we will discuss about treasures of the Earth and a timeline of the Earth. We will also begin planting our school garden with help from the children. Details will be emailed out soon with more details!

Enjoy the spring weather. Go outdoors with your child and let them see the natural beauty!

Thank you,  
Ms. Julesa, Director

## Upcoming Events:

April 8<sup>th</sup>- Spring Pictures/  
Class Pictures

April 22<sup>nd</sup> – Earth Day
